**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 4 of the specification, at line 12, change "FIGS. 11-14" to --FIGS. 11-16--.

***Allowable Subject Matter***

2. Claims 1-65 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-65, the prior art does not disclose or suggest applicant's claimed methodology or structure formed thereby, the allowable claimed invention being characterized, in summary, for example, by longer lengths of "semiconducting carbon nanotubes" at first "synthesis sites" relative to shorter "conducting carbon nanotubes" at second "synthesis sites".

While the claims allowed may *seem* exceedingly broad, the limitations in view of written description establish a unique scope of an invention that could be adopted for making a device from semiconducting and conducting carbon nanotubes [e.g. claim 55].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
